EXPERIENCE

Microsoft Student Partner

July 2017 — Present

Microsoft Student Partners (MSPs) share their deep knowledge and passion for technology with their fellow students, building leadership and communication skills along with technical expertise.

Android Developer Intern at Toast

Mar 2017 — Present

Toast is a California-based start-up that aims to connect people over home cooked meals and fun activities. I am part of the team in charge of developing the Android client app.

Android Developer Intern at Websites.co.in

Feb 2017 — Mar 2017

Websites.co.in is a SaaS platform that allows anyone to get their business online as fast as possible. I was responsible for making an Android app that helps you manage your website.

PROJECTS

Personal website (HTML/CSS, JavaScript, Jekyll)

My personal website and blog. Find downloads, links to source code, and detailed descriptions for all my other projects at <https://samriddhabasu.github.io/projects/>

NotePal – Material Notepad (Android)

A beautiful Material Design note-taking experience with some innovative features, created as part of the Android Developer Nanodegree program. [Available on the Google Play Store](#)

MessenJ (Java, Android)

A P2P chat app written in pure Java and later ported to Android. Developed as Second Year Computer Engineering project for Object Oriented Programming Methodology course.
