TECHNICAL SKILLS

- Programming & Debugging (C, Java, Python, etc.)
- Data Science & Analysis (Spark, Hadoop)
- Database Systems (RDBMS/SQL, NoSQL)
- Version Control (Git)
- Web Development (HTML/CSS, JavaScript)
- App Development (Android)
- Machine Learning
- Linux Kernel

EDUCATION

Master of Computing (Computer Science)

School of Computing, National University of Singapore (NUS)

August 2022 — Present

GPA: 4.17 / 5

Bachelor of Engineering (Computer Engineering)

Sardar Patel Institute of Technology (University of Mumbai)

August 2015 — May 2019

GPA: 8.86 / 10

Junior College (Science)

Pace Junior Science College, Mumbai

June 2013 — May 2015

- Cleared Joint Entrance Examination (JEE) – Mains and Advanced

CERTIFICATION

Mobile Web Specialist

Google

August 2019

Front-End Web Developer Nanodegree by AT&T, Google, GitHub

Udacity

May 2018 — Nov 2018

Android Developer Nanodegree by Google

Udacity

Feb 2016 — Jan 2017

EXPERIENCE

Software Engineer and Data Scientist at Credit Suisse

Used Palantir's Foundry platform for Big Data Analysis to work with high volume trade datasets and generate Market Risk-related insights and reports, as part of the Market Risk Technology team.

July 2021 — July 2022

Technology Analyst at Credit Suisse

Developed and maintained a C#/.NET-based flow management tool for managing trades in foreign exchange and listed derivatives, as part of the Electronic Trade Flow Management team.

July 2019 — July 2021

Code Reviewer and Mentor at Udacity

Reviewed student submissions of projects for the Android Developer Nanodegree and served as a mentor for students participating in the program.

Jan 2018 — Mar 2019

Technology Intern at Credit Suisse

Worked on redesigning and refactoring a C#/.NET-based application used by traders within the organization, as part of the Global Markets Technology department.

May 2018 — July 2018

Android Developer Intern at Toast

Developed the Android client app for Toast, a California-based start-up that aimed to connect people over home cooked meals and fun activities. The app featured Google Maps integration, social sign-up, and more.

Mar 2017 — Oct 2017

Android Developer Intern at Websites.co.in

Developed the Android client app for Websites.co.in, a SaaS platform that allows anyone to get their business online as fast as possible. The Android app is a convenient way for users to manage their website.

Feb 2017 — Mar 2017

PROJECTS

Chehra – Face Recognition Attendance Management System

Machine Learning, Image Processing, Django, IoT, Android

A proof-of-concept attendance management system that supports recognition of multiple faces from classroom pictures. The teacher app initiates the process for marking attendance while student app receives attendance status notifications and allows tracking attendance stats over time.

NotePal – Material Notepad

Android, SQLite

A beautiful Material Design note-taking experience with innovative features such as pinned and scheduled notifications, OK Google voice actions, Drive backup, etc. [Available on the Google Play Store](#)

Multi-user Adaptive Launcher for Android

Android, UX Design

Allows multi-user multi-profile and single-user multi-profile workflows on a single device, where each profile (e.g., Work, Travel) has its own list of applications and smart suggestions, to increase efficiency.

paC-man

C lang

A clone of the popular arcade game by Toru Iwatani. Written in C using Borland Graphics Interface.
